Meow!

How much does this fish cost?

Mmm...

The fish costs...

That’s $6 dollars for every 2 pounds.
Ugh.

Thanks, Ratey.

Okay.

She's right!

Water flows through that showerhead at...

You're wasting water.

Turn off the shower!

...3 gallons PER minute!
You’ve been showering for 10 minutes. That’s 30 gallons of water down the drain.

<table>

</tr>
<tr>
<td>30 Gallons</td>
<td>PER</td>
<td>10 Minutes</td>
</tr>
</tbody>
</table>

You’re eating 1 apple PER person!

5 apples : 5 people!

Get out of the shower!
$10 PER lawn mowed...

At 5 lawns in the neighborhood, that’s 50 bucks.

Four commercials PER commercial break.

Meow.
Two hours of gameplay PER day...

...that’s 14 hours PER week.

Meow.

Half a gallon of milk PER week. That’s 1 gallon of milk every 2 weeks.
Ah man...We've still got 100 miles to go!

We'll get there soon, I'm driving 50.

Meow.

You're not going 50! You are going 50 miles PER hour.

That means you'll go 100 miles in TWO hours.
Is that your cat?

It’s Ratey...the math cat...

...Oh, 1 mile marker PER mile.

We have two hours in the car with him?

Maybe I’ll kick it up to 70.

Meow.

Meow.
